REDESIGN LAUNCHED FOR POPULAR INSURANCE TRAINING

First Consulting is excited to announce that their popular Anti-Fraud, AML, OFAC and Privacy Training courses for Life/Health and Property/Casualty insurance companies have been redesigned and are completely updated and refreshed for the 2018 training season.

The most exciting aspect of this redesign are the “bite-size” modules, where content is provided in self-contained segments, each followed by a short quiz. Modules run from 5 to 35 minutes each, and the employee has the ability to start and stop as needed. All of this makes the two hours of coursework much easier to fit into busy work schedules.

For the same competitive cost as in the previous year, updates for the 2018 Training season include redesigned content, updated cases and examples, and current red flag lists. Insurers can enroll their employees on the First Consulting user-friendly online learning management system, or license the content and upload the course to their own learning management system.

These courses, intended for insurance home office employees and third party administrator employees who perform the same functions, meet even the most stringent state regulatory requirements for non-SIU personnel.

Individuals wanting more information are invited to visit First Consulting’s website at www.FirstConsulting.com or contact CJ Rathbun, Senior Consultant, at CJ.Rathbun@FirstConsulting.com.

Since 1969 First Consulting & Administration, Inc. has assisted the insurance industry with compliance and regulatory issues. The primary areas of compliance consulting include product development; drafting and filing; third party administrator licensing; research; compliance training; advertising compliance; Uniform Certificate of Authority Application (UCAA) filings; compliance monitoring and a full range of Enterprise Risk Management (ERM) services including ORSA and Corporate Governance compliance tailored to insurance company needs.
